

# MOHAMED HUSSAIN

Junior Penetration Tester | Web Application Security | Vulnerability Assessment

✉ mohamed.hussain.pentester@gmail.com    ☎ +20 01221702558

## Professional Summary

---

Junior Penetration Tester with hands-on experience in web security testing, reconnaissance, and vulnerability assessment through practical labs and cybersecurity training. Familiar with SQL Injection, XSS, CSRF, and IDOR, using Burp Suite, Nmap, Metasploit, and Kali Linux.

## Education

---

**Bachelor of Computer Science**, *Assiut University*

## Technical Skills

---

### Penetration Testing

Web Application Security, Vulnerability Assessment, Reconnaissance, Enumeration, OWASP Top 10

### Security Tools

Burp Suite, Nmap, Metasploit Framework, Kali Linux, Wireshark

### Web Vulnerabilities

SQL Injection (SQLi), XSS, CSRF, IDOR

### Programming & Networking

Python, PHP, JavaScript, SQL, TCP/IP, HTTP/HTTPS, DNS, Linux

## Cybersecurity Training

---

### Digital Egypt Pioneers Initiative (DEPI),

Ongoing

*Vulnerability Analyst & Penetration Testing Trainee*

- Developing practical skills in vulnerability assessment, reconnaissance, scanning, and web application security testing.
- Using Burp Suite, Nmap, Metasploit, and Kali Linux in hands-on security exercises.
- Studying common web vulnerabilities and penetration testing methodologies through practical labs.

## Practical Security Experience

---

### TryHackMe — Hands-on Penetration Testing Labs

- Completed practical labs including Blue, OHsint, and Neighbour, applying reconnaissance and vulnerability assessment techniques.
- Practiced identifying and testing SQL Injection, XSS, CSRF, and IDOR vulnerabilities in controlled environments.
- Applied penetration testing workflows using Linux-based security tools, including information gathering, scanning, enumeration, and exploitation.
